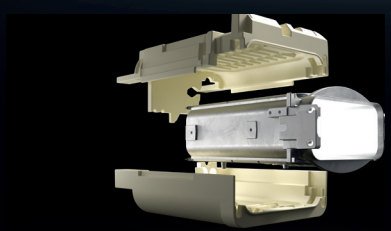
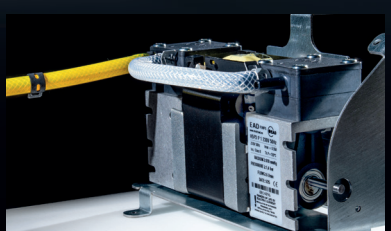
Performance technology inside.

Die-cast Aluminum Chamber

Patented aluminum alloy chamber is manufactured through an advanced die-casting process that yields exceptional structural integrity and thermal conductivity, ensuring uncompromised performance throughout the device's operational lifespan.



Polyurethane foam chamber Insulation



Heavy-duty vacuum pump

Lifetime warranty

The chamber is covered by a lifetime warranty.

Structure-integrated heaters

Heating elements are directly integrated into the die-cast chamber structure during production. Seamless thermal interface significantly reduces warm-up intervals while ensuring optimal temperature uniformity.

Fully automatic with touch screen control

Red sillicone chamber seal with snap-off tray mount
