CHAIR SCALE
FOR PATIENTS WITH
DECREASED
MOBILITY

Lift-Away Armrests

Digital Weight Indicator

Transport Handles

Patient Chair

Lower Frame

Upper Frame

Battery Holder Covers

Built-in Wheels

Fold-away Footrest

DETECTO's 6880 chair scale is the simple solution for patients with decreased mobility. The 6880's retractable padded armrests and footrest ease in transferring patients into and out of the chair scale for weighing. Patients can sit in comfort in the ergonomic seat during the weighing process while healthcare professionals will enjoy the intuitive user interface that simplifies operation. The vivid 0.75 in / 19 mm high LCD display is easily readable in a variety of lighting conditions. Connected models include Wi-Fi and Bluetooth 5.0 for wireless connectivity with EMR/EHR systems.

Standing up on a scale can be difficult for patients who are physically disabled or in long-term care. DETECTO's 6880 chair scale is of great benefit to patients and medical staff in nursing homes, hospitals, geriatrics, and orthopedic departments. The 6880 is equipped with a TARE function which allows blankets, electronics, or other items held by the patient to be removed from the patient's weight. The HOLD key allows the medical personnel to take care of the patient first and record the measurements later.

Dual smooth-running wheels on the back two legs of the scale allow medical personnel to tilt the scale back and push it to other areas wherever needed. The ergonomically-shaped padded handles make it very easy to push the chair scale. This maneuverability allows the scale to be used in multiple departments.

- 550 lb x 0.2 lb / 250 kg x 0.1 kg capacity
- RS232 serial and USB ports standard
- Bluetooth 5.0 / Wi-Fi included on -C models for wireless connectivity with EMR/EHR systems
- Lift-away armrests and footrest
- Oversized 3 in / 8 cm diameter wheels
- Contoured sloping backrest allows the patient to assume a relaxed position
- Fully electronic – single load cell
- Padded armrests for patient comfort fold out of the way for easy accessibility
- Stylish black paint color allows the 6880 scale to blend into any healthcare environment
- Plastic molded seat for optimal comfort
- StableSENSE adjustable filtering
- Sturdy steel construction for long-lasting durability over a lifetime of use
- Body Mass Index calculation
- Units locking into LB or KG
- 0.75-inch-high LCD weight readouts
- Dual integral wheels for easy maneuverability
- 12 AA batteries (not included) or AC adapter (included on some models)

Model 6880

550 lb x 0.2 lb   250 kg x 0.1 kg

iPhone-like indicator with 0.75-in-high LCD readouts, battery level indication, and easy-to-use keypad with six buttons.

Automatically locks on weight temporarily for a few seconds in order to easily view and record measurement.

Bluetooth™ **Wi-Fi**

Wi-Fi/Bluetooth models available (see Models table on back page)

- Units Locking
- 1 RS232 Serial Port
- Power-Up Zero
- 1 Micro-B USB Port
- Auto Weight Lock Feature
- StableSENSE® 1 Adjustable Filtering
- 12V DC AC Power Adapter (Available on Models 6880-AC and 6880-C-AC)
- Wi-Fi / Bluetooth BLE (Available on Models 6880-C and 6880-C-AC)

Padded lift-away armrests for ease of transferring patients from either side

Lift-up footrest for helping patients out of the scale

Dual wheels for easy maneuverability and transport

Plastic molded, ergonomic seat for patient comfort while weighing
