# THE 3001KL-AM

ANTIMICROBIAL DIGITAL PLATFORM SCALE

The all-digital 3001KL-AM supports up to 1000 pounds and provides the optimum quality, reliability, and ease of use with a state-of-the-art digital height rod. Designed to meet the needs of doctor's offices, hospitals, clinics, and acute and long-term care facilities, The scale features a large non-skid low profile platform, "live" handrails for patient stability, and rugged scuff-proof wheels that enable portability. The scale also offers an antimicrobial keypad, handrails, and transport handle to give patients and providers additional safety. The scale's high-contrast color screen provides a user-friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pre-tare, and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently

The 3001KL-AM offers two optional height rod options with quick and easy to assemble brackets, a digital height rod 245EHR-3001 or a mechanical height rod 3001HR. The 245EHR-3001 market-leading digital height rod provides the most accurate height measurement in its class, with a gradua-tion/resolution of 1mm/0.1" and a full measuring range of 11 ¾" – 79 ½" / 30cm – 202cm and a digital range of 3ft 11.2" – 6ft 7.5" / 120 cm - 202 cm. The 3001HR features a durable height rod construction and an easy-slide head-piece that allows caregivers to quickly and effortlessly measure and read a patient's height. The 3001HR pro-vides a measuring range of 2"-90" in 1/16" increments (6 cm-230cm in 1mm increments).

The scale provides easy integration and seamless communication with today's EMR applications. The 3001KL-AM includes a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter® Professional Connectivity Solutions.

THERE'S STRENGTH IN OUR NUMBERS.

When you add up the numbers on our scale, it's not surprising that the 3001KL-AM is your choice for safety and reliability.
