Lexa Sterilizers

Built for Demanding Sterilization Workflows.

Lexa Plus and Lexa sterilizers deliver:

- Fast cycle times with customizable cycle options
- High-capacity chambers for faster instrument turnaround
- Bone-dry loads with HEPA filtered, closed-door drying
- Low-maintenance design: no weekly or monthly cleaning cycles
- Fresh, distilled water every cycle

Comparison
of Key Features

lexa

lexa PLUS

Classification	Steam flush pressure pulse			Class B, pre-vacuum sterilizer		
Total cycle including complete drying time	**Wrapped Cassettes**	**Pouches**	**Unwrapped**	**Wrapped Cassettes**	**Pouches**	**Unwrapped**
	53-71 min	43-58 min	26-39 min	28-62 min		20-40 min
Typical load	n/a			39 min		24 min
Efficiency of sterilization cycles*	Fast cycles with versatile program options for various loads, reduces overall cycle duration.			**Eco-dry + technology** Adapts the drying time to the mass of the load, enables faster cycles and saves energy. Approximately 15-20% faster compared to Lexa.**		
Traceability	Optional			**EliTrace** Advanced documentation system that offers full traceability down to the single instrument or set.		
Easy maintenance	**Does not require weekly or monthly cleaning cycles.** Only wiping the chamber, the door gasket and cleaning the chamber filters are required monthly or every 50 cycles – whichever comes first. Does not require the use of harsh chemicals.					
Built-in USB data logger	Cycle documentation is automatically saved via a USB stick.					
Warranty	2 years or 2,000 cycles – whichever comes first					
Overall dimensions (W x H x D)	19.3" x 17.8" x 24.3" (490 mm x 452 mm x 616 mm)			19.3" × 17.9" × 24.4" (492 mm × 455 mm × 620 mm)		
REF numbers	110 V: 19943411 220 V: 19943111			220 V: 19933101		
For detailed product information						

*Cycle times may vary depending on voltage and instrument loads.
**Applies to 270° F cycles only.
